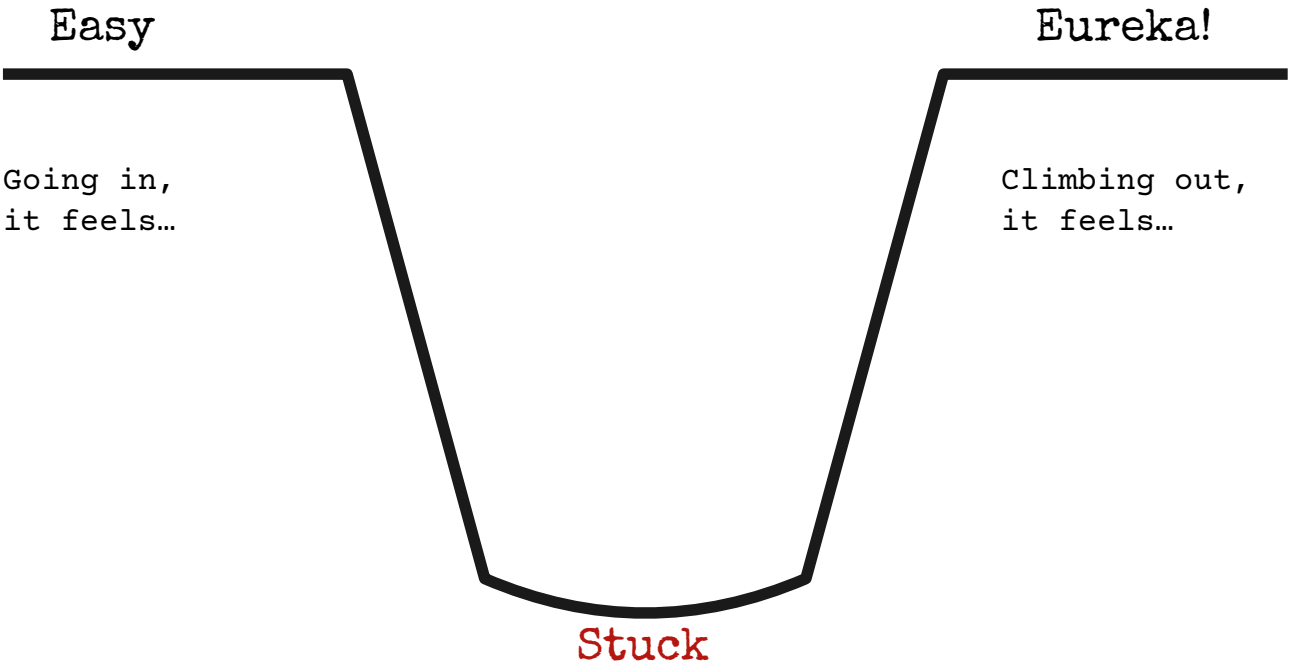
CASE #04

Our pit map

Detective: _____

Crew: _____

Draw the learning pit. Label what it **feels like** going in, at the bottom, and climbing out, and which **tools** get you out.



Tools that help us climb out

Reread it · find an example · try another way · ask someone · take a breath · break it into steps · …

A time one of us was in the pit

What was it? Which tool worked?
